

PROPOSED PROGRAM CONTENT APPLICATION FORM

Preamble

- Any person or organisation from within our community of interest; the Religious – Christian community, is welcome to express an interest in contributing Program Content ideas for broadcast through 96threeFM.
- 96threeFM values forming partnerships with potential program content providers; partnerships that provide mutual benefit. We view our programs and presenters as an investment into a long-term relationship with our listening audience. As a result, we desire to form relationships with our program content providers rather than just have a contractual connection.
- Prior to completing this Form, a meeting with our CEO would be greatly beneficial so we can discuss your proposal and our criteria for evaluating new program content.
